### HIGHWAYS SUPT. FRED LEAKE IS CRITICALLY ILL

### POOR ATTACKED Popular County Official Suffering from Peculiar Mishap

County Superintendent of Highways Fred W. Leake is in a critical condition at his home in Amboy suffering from a blood clot on the brain which was sustained several days ago in a most unusual manner He was reported to be resting as comfortably as could be expected at a late hour today.

About May 4, he was engaged in making measurements at the site of the Cromby Lane, bridge west of Franklin Grove which spans Franklin creek. In going down one of the steep embarkments, his foot slipped on a loose stone and he fell a considerable distance. At the time sustained any injury but each day his condition became aggrevated from what appeared to be a bruise of the spine sustained in the fall Late last week his condition grew rapidly worse and an examination revealed the formation of a blood clot. He was brought to Dixon Saturday for the examination after which he was immediately returned to his home where a trained nurse was placed in attendance. He is not permitted to have visitors and is under close observation at his

### Rockford College Festival May 20th

annual Rockford College May Festival, a traditional ceremony of 39 years standing, will be held this year on Saturday, May 20. A new May Queen, chosen by her fellow students as most representative of Rockford College, will be crowned, and a spectacular dance pageant will be given in her

honor The identity of the May Queen has not been revealed, although the names of the three seniors who have been selected as candidates have been announced. They are Miss Ann Walker, Evansville Ind Miss Katherine Rawson, Rockford and Miss Pauline Fisher, also of Rockford. The new queen, who is one of these three girls, will receive her crown from the old queen, Miss Jane Durrill, of Wilmette.

Old graduates of the college ter interesting tales about the crowning the first queen in 1894. The first queen was selected for her beauty, grace and popularity, and not for her representative qualities, as she is today. The balloting for the queen took place in Middle Hall immediately preceding the actual ceremony of crowning, instead of a month beforehand as is the custom now. The queenship also was not restricted to seniors but was open even to the students in the preparatory school.

Those who graduated in the classes of the late 1890's recall with amusement that every attractive girl in the college quite innocently washed her hair the day before the May Festival. It was the custom for the May Queen to let her hair hang during the ceremony. Several graduates recall with indignation the fact that they were admitted to May Party for several years following their graduation. These who attended came on special invitations only and many of the graduates were inadvertently omitted from the list.

More than 200 students are taking part in the festival, which is the most elaborate function on the college calendar. This year Scott's Talismen, which combines a charming romance with the story of Richard Coour de Lion's third crusade, will be interpreted through the medium of the dance.

Increase Dixon's Population 1,000 each year. Connect Dixon with the Inland Waterway System. Pass a City Zoning Law. Enlarge Dixon's City Limits. Abolish the Smoke Nuisance. Repave and Widen Streets in Business District. Build a Municipal Bathing Pool. Advertise the Beautiful Rock River Valley. Develop Dixon as an Industrial and Trading Center.

### NEW SOCIAL ORDER EMERGING

Slowly but steadily the pieces of that gigantic jigsaw puzzle at Washington are falling into place; and as they do it begins to be possible to get an idea of what the outlines of our new society are going to be like.

Those words, "new society," do not go beyond the facts. Almost without realizing it, we have swung off from our old course at something like a right angle. If we have not swung nearly as far as some radical leaders would like, we have certainly swung a great deal farther than anyone thought possible as recently as six months ago.

Whether we like it or not, we seem to have put rugged individualism in the grave and patted the earth down shoe high upon shore. "There, that wee Scouty. "It's a goat that made smooth. We are switching from an unrestricted capital- will do," said Windy. "Now, let's that sound. ism to a controlled economy. The social responsibilities of start right out to see what we can "He's in a trap and can't get out. said, 'Kind sir, I want to thank you House the men who employ labor and control money and guide see industrial and agricultural production are in the process It is a noise that quite annoys." down to the ground." of getting written into law.

That means a change as tremendous as any that has said ,"You're funny as can be." come to use since we won our independence from Great

It means that American soil will no longer nurture the ourselves. "We're going to follow "I really think that if we tried, faithfully on duty to listen to the the Republican side and listen. picturesque and reckless autocrats of the past-the Jim you. There lies today's great opportunity. This country, first to prove that democratic government could work, now has the chance to prove that the escape from the evils of capitalism need not lie in a revolutionary repudiation of capitalism or in a revolutionary repudiation of democracy.

### PASSAIC'S BOY HEROES

Those six orphan boys of Passaic, N. J., whose presence of mind saved an Erie railroad train from a disastrous wreck, seem to be getting about all the honors that any six youngsters could well handle.

Both the city of Passaic and the Erie railroad invited them to go to the circus. A citizens' committee has been and intending advertisers for adformed to take them to a ball game. Medals are to be vice. The new advertiser requires awarded and a trust fund to educate the boys is being sub- very careful handling, inasmuch as. scribed. A New York banker has presented them with new baseball gloves. And, last but never least, Babe Ruth himself telegraphed his congratulations and asked them to press advertising for ever and be his guests when the Yankees next play in New York. anon.

So far, so good. But one wonders just what all this sort of thing does to youngsters like these, in the long run.

During the last twenty years I reported that American-born de-bare seen many appropriations wasted, and many tons of goods left wasted, and many tons of goods left wasted. Or do they have the balance to tempt to do without or cut down than their foreign progenitors. take it in their stride? The private thoughts of a boy-hero would be worth examining, if there were any way of looking at them.

Since lody size and height are largely a matter of heredity, these findings have provoked a good deal of speculative thinking.

### DIRECTORS' RESPONSIBILITY

Senator Hamilton F. Kean of New Jersey objects to the efacturer is suddenly confronted taking diseases; still others to improvision in the pending federal securities bill which with a suggestion from some enter- provement in diet. would require directors of companies to sign statements prising advertising agent that a lit is probable in the long run concerning the affairs of their corporations and which sum of 20,000 pounds or more will that each of these factors has consumed to the concerning the affairs of their corporations and which sum of 20,000 pounds or more will that each of these factors has consumed to the concerning the affairs of their corporations and which sum of 20,000 pounds or more will that each of these factors has consumed to the concerning the affairs of their corporations and which sum of 20,000 pounds or more will that each of these factors has consumed to the concerning the affairs of their corporations and which sum of 20,000 pounds or more will that each of these factors has consumed to the concerning the affairs of their corporations. would make them civilly liable for losses by stockholders. place this same manufacturer in among these.

Nobody, the senator argued, would want to be a directive hands of a more scrupulous some years ago it was observed tor if he were apt to lose his shirt because some company agent who knows his job and who that the additional daily allowance about whose inner affairs he knew very little should go into a tailspin.

That may be true; and the result might well be that di-rectors would be extremely careful to know just what initial expenditure as a "try-out."

There had been no absolute de-ficiency in their diet, either on the their companies were doing, which would be a very fine that his investment will be worth the amounts of its protein, carbotheir companies were doing, which would be a very life that his investment will be worth while. There are many sound in the last few years; if the new law would induce directors really to direct, we should all be better off.

HOT WEATHER PRECAUTIONS

that his investment will be worth while. There are many sound in the amounts of its protein, carbon hydrate and fat content.

The added pint of milk represented to quantitative and not a qualitative increase.

Subsequently it was found that giving a comparable group of boys the protein of the amounts of its protein, carbon hydrate and fat content.

The added pint of milk represented to quantitative and not a qualitative increase.

The general arrival of warm weather brings a new rush manufacturers to their list of skimmed instead of whole milk of business to the old swimming hole again; and this, very shortly, will bring the usual number of drownings unless the swimmers, juvenile and otherwise, pay attention to a clients.

What advertising, in argued from this that the improvement in growth was evidently not due to the fat of the milk or to few simple rules of safety.

It isn't wise, for example, to go suddenly into cold water when you are overheated, or when you have just finished a meal. It isn't wise to swim alone in a part when ished a meal. It isn't wise to swim alone in a spot where no one can help you if you need help. It isn't wise to dive into a strange pool without first satisfying yourself that you aren't apt to land on a hidden rock or snag. It isn't wise to go in the water when you're under now physically with accamation. And so I could factory in an essentials, but in accamation. And so I could factory in an essentials, but in accamation. And so I could factory in an essentials, but in accamation. And so I could factory in an essentials, but in accamation. And so I could factory in an essentials, but in accamation. And so I could factory in an essentials. wise to go in the water when you're under par physically, quicker and, what is of more im- make available to the growing or to keep on swimming after you have got cold or tired. portance to the advertiser, the re-child an abundance of the raw ma-

Those rules are perfectly obvious, of course. But every year a lot of people who forget to heed them get drowned.

Art releases the hidden beauty of man and by its touch lection of medium. 2. Penetration.

SUCH GOOD READING By Bruce Catton

The secret of writing novels evidently, is to load your book ful about, are apt to conclude that it's very fine stuff anyway and call or

"Stallion," by Marguerite Steen seems to come in this class. A number of reviews have hailed your tactics. You have applied the this book for its penetrating psychological insight, its syn:bolit have in a determined machine-like overtones and what-not. But the

pretty dreary dull, forced and self

It's one of those studies of Eng ish farm life that the bright met ropolitan novelists are so fond o doing. It deals chiefly with a slova prize stallion about the country at regluar intervals and who use

these excursions to kick over the He comes to grief when he en counters a girl from a wandering carnival outfit. They drift along to gether, quarrel violently, and a last he throws acid in her face. He goes to prison, and his wife-a pa tient-Griselda sort of person whe seems to represent true womanhood, or the sturdy peasantry, of the spirit of progress or something

Most of the minor characters PROPHETIC?in the book, by the way, come to a bad end while all of this is going

-takes the girl in and looks after

And, all in all, it's apt to strike the average reader as arty and tire

Do not miss Dr. Joseph F

# Henry Ford Dearborn, Nich.

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method --- new political and financial machinery --- to pull us out the way we are going --- forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only--- the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

Kenny Ford

DIET AND GROWTH

# Names you should know

YOU like to know names that everybody knows-name of the man who tied lightning to a kite; name of the man who watched a teakettle and went out and made an engine. Just knowing such names gives you pleasure.

Yet there are names that thousands of people know that can give you much more pleasure in a much more personal way. Names that stand for the best things to eat, to wear, to sleep on. Names, that if connected with the salad dressing, hat, fountain pen you select-or any other desirable thing-mean it is most desirable. Names written large in ADVERTISEMENTS.

Advertisements tell why those are wise names for you to know. Why such names greet you in the best grocery, department and hardware stores. Why those names are in the buying vocabulary of thousands . . . are believed in by thousands . . . justify belief!

Read the advertisements. Don't ask vaguely in a store for "cold cream," "a skillet," "a vacuum cleaner." Ask for So-and-So's Cold Cream, So-and-So's Skillet, So-and-So's Vacuum Cleaner. Use the names, you have learned through advertisements, that stand for the product that means most to you and most to overybody.

READ THE ADVERTISEMENTS TO KNOW

Women Nurse Gandhi in Death-Fraught Fast

Millions of Indians to whom he is a holy man and millions who look upon him as one of the world's most interesting men are watching the progress of the Mahatma M. K. Gandhi's 21-day, death-threatening fast. Released from fail on May S when he started his fast, Gandhi now is at the Poona home of Lady Vittal Das Thackersey, lower left. Lady Thackersey, a Brahmin, wears a diamond in her nose. Gandhi is nursed during his fast by Mrs. Sarojini Naidu, upper right, revered Indian poetess. During his fast Gandhi partakes only of water, to which he occasionally adds a pinch of salt or soda. Eccause of the heat and his weakened condition damp towels are constantly applied to his head.

### CHRISTIAN SCIENCE CHURCHES

"Mortals and Immortals" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 14. The Golden Text was, "Thou art

no more a servant, but a son; and if a son, then an heir of God through Christ" (Galatians 4:7). Among the citations which com-

prised the Lesson-Sermon was the following from the Bible: "Stand The Lesson-Sermon also in-

cluded the following passages from the Christian Science textbook, 'Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The enslavement of man is not legitimate. It will cease when man enters into his heritage of freedom, his God-given dominion over the material senses. Mortals will some day assert their freedom in the name of Almighty God" (p. 228).
